## TADCASTER PARISH REGISTERS

### VOLUME 1

#### INTRODUCTION

Borthwick Institute Reference No: PR TAD 1

Volume 1 of the Tadcaster Parish Registers consists of 70 vellum leaves (or folios) bound together without an outer cover. The entries run from June 1570 to June 1624.

The vicars of Tadcaster during this period were\*:

- Edward STAMPE - instituted after 1560  
- buried 25 April 1575
- Roger STOWINGE - instituted 9 August 1575  
- married Dorothy SIDDALL 12 August 1595  
- buried 22 March 1608/9
- Henry GREENE - instituted 9 August 1609  
- resigned ? 1613
- Thomas CLYFTON - instituted 31 December 1613  
- mentioned as vicar in 1638  
- will proved on 15 December 1644

The handwriting is very similar throughout the volume and it seems reasonable to assume that the earlier years, at least, were copied on to vellum at a later date than the entries themselves. The most likely date on which the writing of the volume began is post 1598 when an order was issued that Registers should be copied on to parchment "especially since the first year of her Majesty's reign" (1558).+ (This also implies that there may have been an earlier volume still which has been lost).

At some point in their history the individual folios of volume 1 have been re-assembled and re-bound and they are no longer in their correct chronological order. The correct chronological order of the folios has been re-established in this transcription. The actual order of the folios in the volume as it is now bound up can easily be determined by reference to the folio numbers at the head of each page of the transcription.

The entries in the Register, within the correct order of the folios, are generally in fairly strict chronological order and they are not grouped by type as they are in many other parishes i.e. baptisms, burials and marriages are all entered in the random order in which they took place day by day.

\*See G.E. Kirk - Guide to St. Mary's Church, Tadcaster - 1939

+See C.C. Webb - A Guide to Parish Records in the Borthwick Institute of Historical Research - 1987, vii.

The entries for the years 1602 to 1608 are extremely sketchy. Indeed, the folios for those years seem to be preparatory sheets for the main Register and they contain only a very limited number of entries all of which are baptisms. There is also a minor gap between 22 February 1595/6 and 5 May 1597, probably explained by the loss of one or more folios at the time of re-binding, and two shorter ones from 24 April 1599 to 6 August 1599 and from 24 January 1599/1600 to 20 March 1599/1600. The last of these is noted in the Register in a contemporary hand.

The Parish Register Transcript for 1598 is incorporated with the Register entries at the appropriate point.

The Transcripts for 1631/32 to 1641/42 (which have no parallel Register entries) are reproduced after the main body of the Register entries.

In all but the Transcripts for 1598 and 1631/2 the entries are grouped by type (unlike the entries in the Registers) and the number of entries of each type is generally stated and certified by the signatures of the incumbent and the churchwardens

A list of plague burials in 1645 was entered on part of an incompletely used folio in the pew register for 1634 (see below) and it, too, is reproduced at the appropriate chronological point in the transcription.

Bound up with the Register is a pew register of the parish church dated 1634, much of which is very faded and difficult to decipher. This has been reproduced - as far as it can be - at the end of the transcription after the Register and Transcript entries.

There is also a single pew registered in May 1642 entered on part of a folio relating to baptisms in 1603/4, which is transcribed after the pew register for 1634.

Miscellaneous information and comment is generally very sparse in volume 1 although it becomes more common during the incumbency of Thomas CLYFTON towards the end of the volume.

Among the more interesting insertions are the following:

A dispute between the vicar of Tadcaster and the vicar of Bramham over the right to conduct the burial of the wife of Sir William VAVASOUR at Hazlewood on 5 February 1578/9.

A note of the establishment of a corporation of the free grammar school and hospital (originally founded by Owen OGLETHORPE, late Bishop of Carlisle) on 3 January 1593/4.

The burial of Janet JACKSON of Catterton on 12 January 1614/15 at the age (apparently) of 115.

The pages of the transcription are numbered in sequence at the foot: these page numbers are used in the indexes at the end of the transcription of the volume.
