TADCASTER PARISH REGISTERS

VOLUME 2

INTRODUCTION

Borthwick Institute Reference No: PR TAD 2

Volume 2 of the Tadcaster Parish Registers consists of 47 vellum leaves (or folios) bound together in leather covered boards. The entries run consecutively, with some minor gaps of a month or so, from October 1653 to July 1671.

The fact that there is such a large gap between the end of volume 1 in 1624 and the beginning of volume 2 in 1653, together with the fact that there are extant Parish Register Transcripts from 1631/2 to 1641/2, suggests that there was possibly a former volume of the Parish Registers between the present volumes 1 and 2 which has been lost.

The incumbents during the period covered by this volume were*:

- | | |
|----------------|--|
| William WARREN | - mentioned as "vicar" in a Parliamentary survey of 1650 and performed a marriage as "minister" on 12 August 1654. |
| William TOYER | - presented to the living on 7 June 1655
- died as "minister" on 9 November 1659. |
| John HOLT | - instituted 19 November 1660
- buried 18 March 1683. |

The handwriting in 1653 is a large, sprawling hand, reducing the number of entries per folio. It changes with the new incumbent in 1660 but then remains fairly consistent until March 1669/70 when there are several different hands through to July 1671. It seems likely that it was still the practice to copy entries on to vellum from preparatory sheets at a later date than the events themselves.

The entries in volume 2 are generally in fairly strict chronological order and, as in volume 1, they are not grouped by type but are entered randomly as they occurred.

*See G.E. Kirk - Guide to St. Mary's Church, Tadcaster - 1939

There is a notable difference in the form of the entries during the Commonwealth and Protectorate (1653-1660) arising from the introduction of a semi-civil form of registration in 1653*. Dates of birth were entered rather than dates of baptism and dates of death rather than dates of burial. Marriages also took place before magistrates in the first place often followed by a church marriage. This is frequently, though not always, noted in the Register. There is a short overlap period between December 1659 and December 1660 when both the Commonwealth and Protectorate system and the system of the restored monarchy are used. The system after the Restoration is identical with the pre-Commonwealth system of entering baptisms, burials and marriages.

The post-Restoration vicar, John HOLT, made a fairly frequent practice of certifying in the Register that he had performed marriages in Tadcaster church and also listed the witnesses at most weddings with a licence in the town. (Thomas CLYFTON, the pre-Civil War vicar, had done the latter once in January 1616/17)

Although not conducted by the incumbent, a number of Quaker burials are recorded from 1658 onwards. These are mainly of Tadcaster residents but they also include some from other parishes. The establishment of a Quaker burial ground near the Grange in Oxton Lane was obviously the reason for these. There is also one Quaker marriage and a few records of births without baptism after 1660 which may possibly be those of Quaker families.

Parish Register Transcripts exist for the following years within the scope of this volume:

1666/7, 1667/8, 1668/9, 1669/70 and 1671.

The entries in these Transcripts have been incorporated with the Parish Register entries at the appropriate points in the transcription of the Register. They are not signed by the incumbent and the churchwardens.

Between October 1662 and July 1669 there is a fairly considerable number of entries relating to residents of Healaugh parish. This suggests that the vicar of Tadcaster was responsible for that parish between those dates, possibly during a vacancy.

*See C.C Webb - A Guide to Parish Records in the Borthwick Institute of Historical Research - 1987, vii.

Miscellaneous information and comment are almost non-existent during the Commonwealth and Protectorate period but become a little more frequent after 1660.

Among the more interesting insertions are the following:

A number of briefs (special collections) during 1661. Two of these are recorded at the correct chronological point in the Register but four others are on spare leaves among the entries for 1654.

A comment by Lady VAVASOUR on the choice of forename for the daughter of Nicholas LEAKE, gentleman, on 9 January 1661/2.

The burial in York Minster of Accepted FREWEN, Archbishop of York on 3 May 1664.

The lodging of His Royal Highness James Duke of York in Tadcaster on 4 August 1665.

As in volume 1, the pages of the transcription are numbered in sequence at the foot and these page numbers are used in the indexes at the end of the volume.

(This folio contains entries in the hands of both the Protectorate minister and the post Restoration vicar or those deputed by them. The post Restoration entries, some of which are retrospective, are marked with an asterisk in this transcript. Some entries use the Protectorate system of recording deaths (DI) and births (BO) but others return to the traditional method of recording burials (B) and christenings (C)).
